

Federico Perra

PRODUCT MANAGER

Federicoperra1998@outlook.com • +352 691268998 • Luxembourg, Luxembourg

PROFILE

Product Manager with 4 years at Amazon (Luxembourg), specializing in logistics automation and large-scale network optimisation. Proven track record of owning 0-to-1 product development end-to-end, from roadmap definition and stakeholder management to delivery, generating over \$6M in measurable impact. CEMS graduate (Bocconi / HEC Paris, top-ranked European management network). Fluent in English, Italian, and French.

PROFESSIONAL EXPERIENCE

Product Manager

Mar 2025 – Present

Amazon • Luxembourg, LU

Led automation initiatives to optimize Amazon's network, collaborating with engineers to define requirements, prioritize features, and integrate customer feedback for continuous product improvement.

- Managed the development of SWA Automation, an innovative route generation product for 'Ship with Amazon' network, leading to \$3.2 million savings and increased delivery speed in IT, FR, ES and UK by 200 bps.
- Led the conceptualization and initial development of ESMM Assistant, an AI-enhanced diagnostic tool that streamlines configuration troubleshooting projected to save 1.7 FTEs.
- Collaborated with senior SDEs on Redundancy Bridge, a cost-optimization tool projected to save \$300K/month by reducing inefficiencies without compromising healthy network redundancy.
- Managed the expansion of my team scope and headcount, onboarding two new team members which transitioned to an autonomous role within 3 months.

Program Manager

Jul 2022 – Mar 2025

Amazon • Luxembourg, LU

Drove cross-functional projects to enhance Amazon's logistics network, leveraging data insights to influence strategy and present recommendations to senior leadership for operational improvements.

- Oversaw Project Brexit, leading various technical and business teams to unlock over 20,000 new potential routes blocked since 2020, which resulted in \$2.87 million annualized savings and recognition at Amazon Worldwide Operations level.
- Coordinated 2024 peak season network expansion strategy for routes configuration in EU, collaborating with cross-functional teams to define execution timelines, and achieving a network reliability of 99.95% (50 bps improvement YoY).
- Orchestrated the sourcing strategy of third-party hauling capacity for high volume events for Amazon rail network in EU, resulting in 93% network coverage (700 bps improvement YoY).

Business Manager Intern

Jun 2021 – Aug 2021

Generali Investments Luxembourg • Luxembourg, LU

Supported the coordination of cross-functional teams to launch investment vehicles, managing the end-to-end process from initial investment idea to regulatory filings.

- Contributed to the successful launch of a fund for a third-party financial institution and facilitated changes in prospectus for multiple Generali funds, collectively totaling \$300 million in assets under management (AUM).
